home.olemiss.edu/~tjray/medieval/cooking.htm
- Cold, new, loose, fluffy, dry snow that has not been compacted. This is usually the product of fresh, natural snowfall.
www.skiblandford.org/snocodes.htm
- Finely divided solid; particles are smaller than one millimeter in maximum dimension. It is metallic, ceramic or a polymer; these can be blended in infinite combinations. An important characteristic is the relatively high surface-to-volume ratio of the particles which exhibit behavior that is intermediate between that of a solid and a liquid. Powders will flow under gravity to fill containers or die cavities, so in this sense behave like liquids. They are compressible like gas. ...
